

League Mobile Apps

League Mobile Apps captures the competitive spirit of athletes through mobile technology.

Problem worth solving

All athletes live by the three "C's" of athletics; Congregate, Compete, and Compare. Currently, no other sports apps , truly addressed how athletes naturally form communities and competitive rivalries among each other.

Our solution

With League Mobile Apps, athlete can now be connected geographically, competitively, and socially based on the three “C’s” of athletics , which is the fundamental glue that holds the athletic world together.
